

Skinning machine V1358

FOR FRESH FILLETS

Narrow skinning machine for all types of fillets

A narrow skinning machine for all types of fillets

Skinning machine V1358

The Skinning machine V1358 is a narrow, single lane skinning machine that is designed to skin all types of fillets.

Because of the small footprint of the machine, it is ideal for production facilities where space is an issue.

It is a robust machine that is easy to programme and easy to clean.

The skinning options range from silver skinning and traditional skinning to deep skinning of fillets, pre and post rigor.
