

Lift system

LIFTING OF RACKS AND BOXES

Ergonomic de-palletizing. Better working conditions

Customised lift system

Lift system

Ergonomic de-palleting of boxes or racks for a proper working height. The lift system can be used for lifting of e.g. racks and boxes on pallets.

The pallets can be in-fed with a manual lifting truck from floor position or lift the boxes from a platform to a lifting truck.

The lifting system can be provided with a safety cover.

The lift system is customised according to need.

Technical specifications

	Lift system
Lifting capacity	1000 kg*
Dimensions (LxWxH)	Customised*

* The lift system is customised. Please contact our sales team for more info and offer.
